Sight

Who: Gucci

What: Men’s sun glasses

Where: Where you need to be the No. 1 stunner

When: When it’s sunny. When haters need blocking. When it works with your gear.

How: Hold edges, slide over ears and in front of eyes and be cool

Knowledge me: Yeah protection from UV rays is nice, but these joints run about a hundred bucks and should primarily be pulled out for high profile floss maneuvers. To be fly, you gotta look fly.
